Why VoltFlow

One reliable partner
Multiple trades coordinated through a single point of contact.

Qualified professionals
Work carried out by appropriately qualified and registered professionals.

Clear, itemised quotations
So you understand the costs before work begins.

Across Greater London
Based in W12 and serving West London and Greater London.

Roof Repairs & Maintenance 01

We provide roof repair and maintenance services to help protect properties against weather damage and water ingress.

- Damaged or missing roof tiles
- Leaking areas
- Defective flashing and general roof deterioration

Flat Roofing 02

We provide flat roofing installation, repair and maintenance services for residential and commercial buildings.

- Suitable roofing membranes
- Surface preparation
- Detailing
- Drainage considerations and repairs to improve weather protection

Guttering & Rainwater Systems 03

We install, repair and maintain guttering and rainwater systems to support effective water drainage away from buildings.

- Gutter replacement
- Clearing
- Downpipe installation
- Repairs and rainwater system maintenance

Fascias & Soffits 04

We provide fascia and soffit installation, replacement and repair services to improve roofline protection and external appearance.

Solutions use suitable materials and finishes while considering roof-edge protection and ventilation requirements.

External Painting & Decorating 05

We deliver external painting and decorating services to refresh and protect building exteriors.

- Surface cleaning
- Scraping
- Repairs
- Priming and application of suitable exterior coatings to masonry
- Walls
- Timber and other appropriate surfaces

Garden Design & Redesign 06

We provide garden design and redesign solutions tailored to property layouts and outdoor living requirements.

Projects can incorporate planting areas, lawns, patios, pathways, boundaries and practical outdoor spaces.

Complete Garden Renovation 07

We deliver complete garden renovation services, transforming neglected or outdated outdoor spaces into attractive and functional environments.

- Garden clearance
- Ground preparation
- Landscaping
- Paving
- Fencing
- Lawn installation and finishing

Garden Construction & Rebuilding 08

We undertake garden construction and rebuilding projects, improving the layout, structure and functionality of outdoor spaces.

- Garden walls
- Retaining structures
- Raised beds
- Steps
- Pathways
- Boundary improvements and external building features

Landscaping & Groundworks 09

We provide landscaping and groundworks services for residential and commercial outdoor projects.

- Site clearance
- Excavation
- Ground preparation
- Levelling
- Sub-base installation
- Drainage-related groundwork and preparation for patios
- Driveways and garden structures

Natural & Artificial Grass Installation 10

We provide natural turf and artificial grass installation services to create attractive and practical garden lawns.

- Ground preparation
- Levelling
- Suitable base installation
- Turf laying or artificial grass fitting
- Edging and finishing

Driveways & Block Paving 11

We deliver driveway and block paving installation services to improve property access, parking and kerb appeal.

- Excavation
- Ground preparation
- Sub-base installation
- Drainage considerations
- Edging and professional paving installation

Patios & Paving 12

We provide patio and paving installation services, creating attractive and practical outdoor living areas.

- Natural stone and concrete paving
- Ground preparation
- Laying
- Jointing
- Edging and finishing

Garden Walls & Brickwork 13

We undertake garden wall construction and brickwork repairs to improve outdoor boundaries, structure and appearance.

- New garden walls
- Masonry repairs
- Boundary improvements
- Low retaining walls and associated brickwork

Fencing Installation & Replacement 14

We provide fencing installation and replacement services to improve garden privacy, security and boundary definition.

- Timber fencing and other suitable materials

Fence & Gate Repairs 15

We provide fence and gate repair services to restore the condition and functionality of external boundaries.

- Damaged panels
- Loose or broken posts
- Faulty hinges
- Worn fittings and other common fencing problems

Garden Gates & Timber Structures 16

We install garden gates and suitable external timber structures to improve outdoor functionality and appearance.

- Timber gates
- Garden screening
- Pergolas
- Privacy features and other appropriate timber constructions

Decking Installation 17

We provide garden decking installation services, extending usable outdoor living space with suitable timber and composite decking systems.

- Preparation
- Supporting frameworks
- Decking installation
- Steps
- Edging and finishing

Outdoor Steps & Pathways 18

We construct outdoor steps and garden pathways to improve accessibility, movement and safety around external spaces.

- Ground preparation
- Suitable base construction and installation of paving
- Slabs
- Brickwork and other appropriate materials

Garden Drainage & Ground Levelling 19

We provide garden drainage and ground levelling services to improve outdoor usability and manage surface water.

- Ground levelling
- Surface preparation
- Grading and suitable drainage improvements to help reduce water accumulation

External Property Repairs 20

We provide external property repair services to maintain the appearance, condition and protection of building exteriors.

- Repairs to external walls
- Masonry
- Render
- Boundary structures
- Roofline components and other external building features
